Objective

Artificial Intelligence and Data Science student Trainee in Python, Big Data, Cloud and Data Analytics. Looking for chances to put tech knowledge to use in real projects and contribute to cutting-edge AI-based solutions.

Education

- 1 Dhaanish Ahmed College of Engineering – B.Tech Artificial Intelligence and Data Science (Expected Graduation: May 2027)
- 2 Government Higher Secondary School, Singaperumal Koil, Chengalpattu, Tamil Nadu – Higher Secondary Education (Class XII), 2023
- 3 Monfort Higher Secondary School, Alandur, Chennai, Tamil Nadu – Secondary Education (Class X), 2021

Skills

- 1 Communication Skills (Basic)
- 2 Strong Grasping Ability
- 3 Quick Learner
- 4 Excellent Understanding of Practical Concepts
- 5 Team Collaboration and Teamwork
- 6 Analytical Thinking
- 7 Problem-Solving Ability

Projects

- 1 Student Performance Prediction (Mini Project) – Built a machine learning model to predict student scores using Python, used Pandas for data preprocessing and Logistic Regression for classification, achieved 85% accuracy.
- 2 Personal Expense Tracker (Mini Project) – Developed a Python-based expense tracking system and visualized monthly expenses using Matplotlib.
- 3 Naan Mudhalvan – Skill Development Initiative – Acquired analytical study on evolving trends in modern cinema, organized data, collaborated with team members, interpreted insights and presented findings effectively.

Certifications

- 1 NPTEL – Big Data Computing (Elite, IIT Kanpur)
- 2 Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- 3 MongoDB Basics for Students
- 4 Infosys – Generative AI for All
